

Kaufland Manufacturing Restricted Substances List (MRSL)

March 2018

The Kaufland MRSL defines the hazardous chemicals which need to be eliminated from the production and products (apparel, footwear and home textiles) till 2020. For all chemicals limit values for products, waste water, sludge and input chemicals have been defined. These detection/reporting limits and test methods will be revised - at least yearly, to always reflect best current technology using lowest detection/reporting limits. At any step of the supply chain, responsible handling of chemicals (purchase, use and disposal) must be implemented. Kaufland strategy to eliminate hazardous chemicals in the supply chain and improve chemical management will be achieved by strengthening both training and auditing at our suppliers.

Kaufland MRSL 定义了2020前必须从生产和产品（服装、鞋类和家用纺织品）中淘汰的危险化学品及其在废水、污泥和化学原料中的检测方法及检出限。
 这一MRSL将被每年更新一次，以反映最新的化学品信息和检测技术。供应链的每一步都必须实施有效的化学品管理（购买、使用和处置）。
 Kaufland将通过对供应商的培训和审核来达到在供应链上消除危险化学品和提高化学品管理的目标。
